Donate and Vaccinate

Project Life Force, with other organisations, initiated a campaign in which it appealed youth to help patients by donating blood and in turn, confirmed vaccination slot was given to the blood donors.

Vaccination Drive

Project Life Force organised a vaccination drive on 27th May, 2021 in which its volunteers got vaccinated with the first dose of Covishield. We always believe in being and bringing the change for the betterment of the mankind. During pandemic, we have been facing crisis in every way; and because we have been standing together, we shall definitely overcome it.

Govt sets in motion mobile camps to tide over blood, plasma shortage

Appeal to youths: Donate blood before taking the shot, help avert acute shortage

Arijit blessed me, congratulated us for our work: Prataek, who donated platelets and plasma to the singer's mother

Give blood and get job initiative by city hosps

On 5th May 2021, Project Life Force celebrated 8 years of its beautiful journey of serving the society. The journey hasn't been easy but it was possible only because of the immense support provided by its volunteers, donors, patrons, doctors, technicians, camp organizers, and every single person who supported in any way.

8 Years of serving the city

Over 500 Blood Donation Camps

200+ Organisations

38000+ units collected

OVER 1 LAKH LIVES IMPACTED

towards making West Bengal a ZERO blood deficit state
